

PHOTOGRAPHY PORTFOLIO

Your culminating task for Grade 11 Photography is to compile your whole semester of work into a professional style portfolio. This portfolio should show your best pieces and your skill and diversity as a photographer.

To show this, you want to demonstrate:

- 1) That you understand composition theory and technical aspects of photography (K/U)
- 2) That you have explored: principles of design, composition, natural and staged images, lighting, Photoshop to accomplish different image goals (T/I)
- 3) That you can discuss and explain your work with clarity (C)
- 4) That you are creative in your image creation (A)

Further evaluation expectations also include the following:

- 1) Your images are high quality and meet assignment parameters. You may have to revise or reshoot images to make sure this is the case. (A)
- 2) Your choice images show attention to composition, creative subject matter and what you have learned about using your camera in this course (A)
- 3) That your work is well presented: it is arranged and labelled with clarity, consistency and in a logical order. (T/I)
- 4) That written summaries are included with each image that contain clearly worded and appropriate content. (C)
- 5) That all required images are present (K/U)
- 6) That the following are all included: well-designed cover page, table of contents and a well written overall introductory artist CV/statement that fits with the overall portfolio design is included. (K/U)

Each Work in your portfolio needs to include:
